PROJECT: ONLINE CHEQUE DEPOSIT

Techniques: Java & Oracle SQL

Algorithm : RSA

Description:

Our project is about depositing a Cheque through online by using mobile devices. First of all the user-A has to login himself as a net banking user then have to fill the required fields in the online cheque leaf to generate a cheque image. After that we could download the cheque leaf in encrypted format. Now we can send that encrypted image to user-B via mail then he will upload that image to his reputed bank website. After that the image will be decrypted with the reference of user-A's bank. Once the decrypted image was matched to the actual cheque image then the amount will be deposited.
